

KEEPING THE HUMAN TOUCH IN HEALTHCARE™

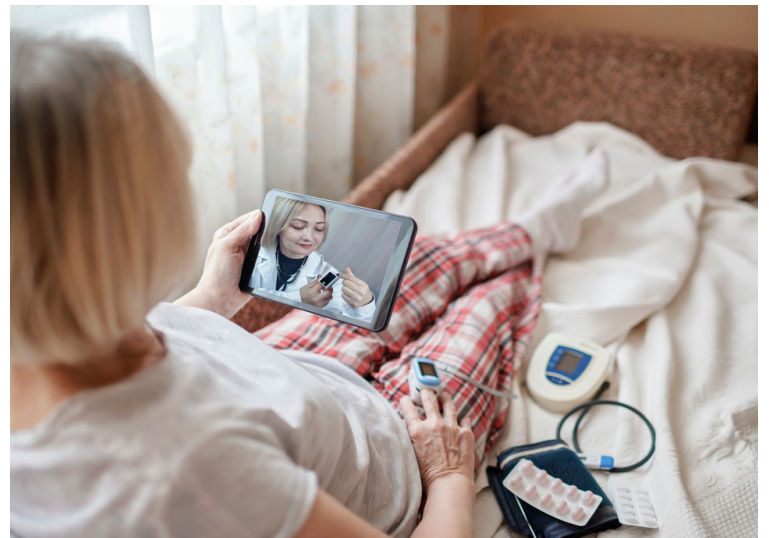

SUPPORT AT HOME

Are You Living With A Chronic Condition?

You can now receive continued health support from the comfort of your home. **Enhanced Clinical Management (ECM)** by Virtare Health will enable your doctor to monitor your health regularly without an unnecessary office or urgent care visit.

A simple, FDA-approved, health-monitoring device will provide your doctor with an accurate representation of your personal health. If changes in your condition occur, a Virtare Health clinical team member will contact you and share the results with your doctor. This will allow you to schedule an appointment with your doctor as soon as any change occurs and will guide better care decisions.

If you or a loved one are living with a chronic condition, ECM is the solution for you. ECM benefits patients living with chronic conditions that require medication management and regular monitoring. You may use your current doctor and insurance plan.

HOW TO GET STARTED

Depending upon your insurance coverage, **Enhanced Clinical Management** may be of little or no cost to you.

1

You have been referred by your care team for ECM.

2

Contact Virtare Health at (855) 745-8400 ext. 8000.

3
